ABOUT US

SGL
GLOBAL SOURCING PARTNER

SGL helps brands and businesses source products from China with better control, quality, and fewer costly mistakes.

While this catalog highlights our expertise in PPE, workwear, and safety equipment, our sourcing capabilities go much further. We also work with manufacturers in electronics, machinery, garments, and consumer goods.

Our team is fluent in Chinese, English, French, and Spanish. We speak the language of the manufacturers, so you don't have to.

We focus on long-term partnerships, quality consistency, and cost optimization, not one-off transactions.

If you're looking to improve your sourcing process, we're always open to a chat.
